

# Smokefree Multi-unit Housing Signage

## Owner/Manager Needs Survey

Signage is a key strategy in achieving high compliance with a smokefree policy. New signage has been developed by the Montana Tobacco Use Prevention Program to help owners and managers achieve high compliance with their smokefree policy. The Montana Tobacco Use Prevention Program is working to assess signage needs in the multi-unit housing community. Please review the signage choices and fill out the following form. Requests will be filled as quantities are available.
